EDUCATION

BHILAI INSTITUTE OF TECHNOLOGY

B. Tech, Computer Science and Engineering [2021 - Pursuing]
CPI: 8.13 (Current)

CERTIFICATIONS

- [React Front to Back \(UDEMY\) Certified](#)
- [Postman API Fundamentals Student Expert Certification.](#)

PROJECTS

- CoinMasters: Cryptocurrency Converter and Calculator** [Link](#) [Code](#)
 - Integrated with MetaMask wallet, powered by CoinMarketCap API.
 - Designed a resilient code architecture using NodeJS, ReactJS, and Solidity.
 - Utilized digital marketing and SEO skills, achieving 83k Google search impressions and 100+ clicks in 5 months.
- Unheard: Support System for Women** [Code](#)
 - Built a solution supporting women on socially sensitive issues.
 - Prepared backend integration for NGOs, doctors and AI chat bot
 - Utilized technologies such as ReactJS, NodeJS, Firebase, WebRTC, OpenAI API, Google Maps API, and Socket.IO.
- Support Ticket System** [Link](#) [Code](#)
 - Developed Support Ticket System: A MERN-based application offering a user-friendly interface for managing support tickets efficiently.
 - Authentication & Authorization: Implemented JWT-based authentication, along with role-based access for enhanced security.
 - Easily manage and track real-time updates on ticket status.

WORK EXPERIENCE

- Web Development Lead**
Google Developer Students Club *Sept 2022 - May 2023*
 - Facilitated 5+ sessions, events, and meetups on various domains.
 - Orchestrated Web Dev events including FrontendDays (C# Corner) and HacktoberWeek (OpinCo), while also spearheading communication with guest speakers.
- Web Development Intern/Trainee**
Immensphere *Nov 2022 - Dec 2022*
 - Accomplished a comprehensive two-month training and internship program.
 - Displayed adeptness in API integration across two distinct projects.
 - Applied advanced JS methods, AJAX, and Rest API in project development

EVENTS AND COMPETITION

- Google Solution Challenge**

Took part in the Google Solution Challenge, creating the Unheard project in alignment with the UNs' 17 Sustainable Development Goals.
- Tech-It-on: Project Competition**

Engaged in Tech-It-On, securing victory with a decentralized transaction application and earning a cash prize.
- OpinHacks: Hackathon**

Organizing OpinHacks Hackathon, developing event website for registrations as core tech team member. Excited to create an exceptional experience.
